Editors Note: These Descendant sheets are the most difficult to put together because every family has a different version of dates and names in many instances. Therefore, I do not guarantee all these dates to be absolutely accurate. We need to again go back to original records and document each name and date that we put on a family Group sheet. I haven't time to do this with each edition of the MESSENGER. So encourage families to begin to do so that our eventual book may be more accurate.
